

# Lovedrug

Frank Hamilton

Lovedrug  
LovedrugMe and you and the plans we made  
And the thing called life's  
The times we made  
Just common sense  
It's just common senseMe and you and the love we make  
In a game called life's  
The turns we take  
So we keep on meaning  
So we keep on believing  
Lovedrug  
LovedrugSo pick me up  
And then drop me down  
Let's fall in the morning  
This is all I think aboutWhen I'm wide awake  
When I'm half asleep  
I've got this addiction to fiction  
So come lie next to mePicking me up  
Pulling me downMe and you and the love we make  
In a game called life's  
The time we take  
And we keep on meaning  
So we keep on believing  
Lovedrug  
Lovedrug  
Lovedrug  
LovedrugKeep on believingSo pick me up  
And then drop me down  
Let's fall in the morning  
This is all I think aboutWhen I'm wide awake  
When I'm half asleep  
I've got this addiction to fiction  
So come lie next to mePicking me up  
Pulling me downPicking me up  
Pulling me downSo pick me up  
And then drop me down  
Let's fall in the morning  
This is all I think aboutWhen I'm wide awake  
When I'm fast asleep

See, I've got this addiction to fiction  
So come lie next to mePicking me up  
Pulling me downPicking me up  
Pulling me downPicking me up  
Pulling me down
