

You're Only Young Once

The Young and the Useless

As time passes by I look to the past and remember good times that never last.

All the memories, I wish I could go back,

I want to go back to the days when we were young and dumb,
full of fun, you and me, everyone...

I thought they would never end but now we know they have.

I'll never forget, I'll never let go,
in the back of my mind are pictures of those times.
