Against the Wall

Wild Things

You come on over by surprise but,
I've been waiting for you all this time
You leave your shirt off at the door,
I'm moving closer just to even the score
Moving side to side, don't you close those eyes
I don't want you to forget this night

I think I like the way you're talking to me,
Give me your hand, no need to stall
I ain't gonna give it to you nice and easy,
I'm gonna throw you against the wall
Give it to me

And I thought you knew this was a game,
Why do ya think I call you over and over again?
And I won't go down in these flames, no, babe,
And if I do you're going down with me, now, listen baby

I think I like the way you're talking to me,
Give me your hand, no need to stall
I ain't gonna give it to you nice and easy,
I'm gonna throw you against the wall
Give it to me

Moving side to side,
Don't you close those eyes

I think I like the way you're talking to me,
Give me your hand, no need to stall
Ain't gonna give it to you nice and easy,
I'm gonna throw you against the wall

Well, I think I like the way you're talking to me,
Give me your hand, no need to stall
I ain't gonna give it to you nice and easy,
I'm gonna throw you against the wall

Give it to me
