Low Down Man

Squirrel Nut Zippers

That low down man of mine
Mistreats me all the time
He says he loves me only
Then turns around and leaves me
Sad and lonelyIf he could see through my eyes
And be the one who cries
He would see, he would never be
That low down man of mineThat low down man with his low down ways
I know he'll go some day
I'll wait till then, the story's ending
It won't be long but from now onIf he could see through my eyes
And be the one who cries
He would see, he would never be
That low down man of mineIf he could see through my eyes
And be the one who cries
He would see, he'd come back to me
That low down man
