

Morphine

Big Charlie

It's too late for me
is there a place where to be?
did you listen? did you listen?
it's too hard to admit
you're the wrost thing i ever need
did you listen? did you listen?this melody
sets slowly my downfall
the remedy
is too far away from home
and the tragedy
will not completly fall apartSlowly
You become my morphine
Did you know
This attitude?
You become my morphine
Its your faultThis time I will
(No no no)
Feel it
No no no
Reality
(No no nowhere)
Distraction
(No way!) (X2)
the melody is killing me
sets slowly my downfall
and the tragedy
will not completly fall apartSlowly
You become my morphine
Did you know
This attitude?
You become my morphine
Its your faultstart your countdown
your whisper
will follow
me in the hole
the screams now
are all in my head
and scare me
more than nightmares

you become my morphine
slowly
you become my morphine (x2)
