

# Give Me An Ocean

**Julie Miller**

I feel a touch like like the touch of your hand  
I hear a voice down the hall  
I answer out loud but there's no one here at all  
there's no one here at all  
Give me an ocean to wash me away  
Give me a river to ride  
Give me a fire to burn down these walls  
With all these memories inside  
Love takes you where you don't want to go  
Down where the waters run deep  
Love gave to me a promise it could not keep  
A promise it could not keep  
Give me an ocean to wash me away  
Give me a river to ride  
Give me a fire to burn down these walls  
With all these memories inside  
I'm going to drive looking tonight for someone that I used to know  
And I'll say your name but that was a long time ago  
that was a long time ago
