**The Dillinger Escape Plan**

Fallen angel how you've changed  
Poison runs through your veins  
You were never a saint but now you're a sin  
Spoiled rotten from within  
Who clipped your wings so useless?  
Cut them yourself?  
Chewed off your own?  
Good thinking  
You were coming apart and I thought I could help you  
Through the fever  
Not the first one  
Not the last one  
I'm not sorry for you  
I remember a time when everything that you knew I thought I already knew in my mind  
And I thought you knew the same  
I know truth will set you free  
Cracked and crazy baby

---
