We Float

PJ Harvey

We wanted to find love
We wanted success
Until nothing was enough
Until my middle name was 'Excess'
Somehow I lost touch
When you went out of sight
When you got lost into the city
Got lost into the nightI was in need of help
Heading to blackout
Till someone told me run on in Honey
Before somebody blows your god damn brains out
You shoplifted as a child
I had a model's smile
You carried all my hopes
Until something broke inside
But now
Take life as it comes
We'll float
Take life as it comesSo will we die of shock?
Die without a trial?
Die on Good Friday
While holding each other tight?
This is kind of about you
This is kind of about me
We just kinda lost our way
We were looking to be free
But one dayWe'll float
Take life as it comes
We'll float
Take life as it comesBut one day
We'll float
Take life as it comes
But one day
We'll float
Take life as it comes
But one day
