

Close to You

Whigfield

Nobody pays much attention
They misuse their time
Maybe it's better to mention
Moments passing by A secret to tell
I got something they don't have
And baby it's you that is lifting me high I just wanna be close to you
'Cause I understand
The strength of your hand
Oh and love that you put me through
You're more than a friend
So love me again Baby you're full of affection
People stop and smile
Maybe they see my intention
To make life worthwhile A secret to tell
Now there's nothing holding back
'Cause baby it's you that is making me fly I just wanna be close to you
'Cause I understand
The strength of your hand
Oh and love that you put me through
You're more than a friend
So love me again I just wanna be close to you
'Cause I understand
The strength of your hand
Oh and love that you put me through
You're more than a friend A secret to tell
Now there's nothing holding back
'Cause baby it's you that is making me fly Oh baby oh yeah
Love that you put me through
Love that you put me through I just wanna be close to you
'Cause I understand
The strength of your hand
Oh and love that you put me through
You're more than a friend
So love me again.
