Rise

American Hi-Fi

I don't know what I can take Can you feel the pressure break? I've been getting by on nothing How long? So longFeeling like I lost my vision Transmission full of dead ambition Kinda sorta, gotta get it together I can't wait foreverRise out of the atmosphere I gotta disappear I gotta get out of here You got the best of meRise up and outta here Into the stratosphere I gotta get out of here You got the best of meI could never be that clever Even though it's now or never Counting down the seconds till it blows 4, 3, 2, 1Disappear without a trace Could I be in outer space Staring at the sun till I get How high? So highRise out of the atmosphere I gotta disappear I gotta get out of here You got the best of meRise up and outta here Into the stratosphere I gotta get out of here You got the best of meDid I break down? Can we slow down?

I wanna get out
I don't wanna be so boredRise out of the atmosphere
I gotta disappear
I gotta get out of here
You got the best of meRise up and outta here
Into the stratosphere
I gotta get out of here
You got the best of meYou got the best of me
You got the best of me

You got the best of me ...
