

# **Totally**

## **Ishu**

Totally cool that your hair is blue  
I totally drool when I think about you  
    Totally neat totally sweet  
    Totally knocked me off my feet  
    Totally rad but it's too bad  
    You're not aware of all my plans  
    I totally lust when I see you around  
The Belmont bus takes me right by your house  
    Totally neat totally sweet  
    Totally knocked me off my feet  
    Totally lame that you won't say  
    You'll hang out with me every day  
    I totally love everything about you
