Cave Painting

We scout across the sky in search of further meaning,
It's all awake so let's discover what we're feeling,
I think you should know, I think we should know,Get up oh won't you feel it,
Know when it's time to go,Miles away from knowing if this time we're keeping,
Is just a frame of mind the weight of what I'm feeling,
I won't let it go, I won't let it go,Spread the fires and light the dark from which your fleeting,
It burns at night and you're the only one to see it,
Go and get it all, go and get it all,Get up, oh now you feel it,
Get up, let it take control,
Get up, oh now you feel it girl,
Get up, down for so so long,Your wide awake you sense the world a pulse that's beating,
It's here again you know the thought it keeps repeating,
Go and get it all, go and get it all.
