

Distance

[Abram Shook](#)

Trust, in a sideways glance
Rhythm operates at a steady pace
Pressure, always on your mind
Fading kind
Down by another
Bound by the present of time
I, I, I
You distance yourself
You know it's a long shot, (long shot)
You distance yourself
You're ready to fall apart, (fall apart)
You might feel better when you show up your gaze, (gaze)
oh, oh
You distance yourself
In so many ways
Spoken words, one mouth to another
Keep sick royalty
Ground by a mother
Bound by won't let her speak
Spoken word gets seen, with a promise
Hand of another
Bound by the other
Hand of another dame
You distance yourself
You know it's a long shot, (know it's a long shot)
You distance yourself
You're ready to fall apart, (ready to fall apart)
You might feel better when you show up your gaze, (gaze)
oh, oh
You distance yourself
In so many ways
