

# Deep Space

## Neru the Fourth Fugee

### Intro

Couldn't sleep or maybe I've been sleep this whole time  
Time, space this whole complex network of consciousness that we share

### Verse

It was all so sudden walk into the darkness  
Complete silence blowing tree with my Ken like I'm back in Thailand  
So its in my roofs like new growth  
Time I spent I made the most  
Eternity is useless if you don't have no one to share it with

### Hook

Give me a sign waiting for the stars to align(x3)

### Verse

Is this reality? Are you my soulmate?  
Tired of society, you gave me an escape.  
Floating in the astral plane  
Smoking weed to ease the pain  
Gotta find myself before I put energy in someone else yea  
Hit the blunt feel like I evaporate with the vapors  
Paranoia taking over don't know if I'm high or if I'm sober

### Hook

Give me a sign (the stars to align)(x2)

### (Transition)

### Verse

My flow get you seasick so cold I'm anemic  
Let these trees hit don't need a playground to know that she's it  
So you pussy niggas get the running  
Give the shotgun time to start hunting  
I'm on a expedition so beam me up Scotty like pippen  
I'm on a neighboring planet finding answers is the mission good people just bad intentions  
But it's all about prospect indigo child I'm sent on the earth as a prophet  
I hope you peep the concept Neru Isis up next up  
Just tryna show the TRUTH  
Just tryna show the light  
Even though they try to block my SHINE like tupac in his prime but then he ran out of time

You rap niggad choked up like the heimlick but ima let them choke  
We're all enslaved on your neck is a rope  
Don't lose hope(x3)

Ghost
