

# Red Team

## Front 242

I am the next stage, I am the next stage  
Are you able to follow the Red Team?  
Are you able to follow the Red Team?  
Death can take a thousand faces  
They all look familiar to me I live in a world of paradox  
My willingness to destroy  
Is your chance for improvement  
My hate is your faith  
My failure is your victory A victory that won't last  
A victory that won't last  
A victory that won't last  
A victory that won't last A victory that won't last  
A victory that won't last  
A victory that won't last
