

# Let It Go (Acoustic Version)

## Cavo

Wait it out till the light  
Take a breathe, say good night  
But don't ever go awayWait around to find the time  
Only you can take what's mine  
But don't ever go awayI'll be waiting', I need to let it goFade it out into the light  
All these years we never get it right  
I need to let it goNo more reasons to defy  
That I believed that you were mine  
[- From :<http://www.elyrics.net/read/c/cavo-lyrics/let-it-go-lyrics.html> -]  
I need to let it goA chance to change or stay the same  
One night with out the blame  
That don't ever go awayOnly you can make it right  
To walk away with out a fight  
But don't ever go awayI'll be waiting, I need to let it goFade it out into the light  
All these years we never get it right  
I need to let it goNo more reasons to defy  
That I believed that you were mine  
I need to let it go  
I wish you'd let me go
