## Five

{ You got the flop for your hair  
Check this out } Let's have a party  
Connect me to somebody  
Let's have a party  
Connect me to somebody  
Five, five, five on line Bein' the man that I am  
And the click that I got  
I wish I was a little bit more like Super Cop  
It's a frenzy my friends be  
Like Benzs to Bentley  
This bad boy not bad  
So why don't you comprende?  
I got your number  
Don't you think it's time we hook it up  
I'm home alone  
Ain't no mums in my area  
Can't go to your place  
'Cos your mum's scarier  
You want to bring some of your friends  
The more the merrier You got my number on your dial  
Waitin' just to come around  
Anytime, anywhere  
Whatever's planned of mini skirts  
High shoes and leather  
Tonight's the night  
Do me right, turn me on Jhelisa got the body  
Julie got the back  
Lisa got the energy  
To help me stay on track Let's have a party  
Connect me to somebody  
Let's have a party  
Connect me to somebody  
Five, five, five on line I'm not talkin' about the ladies  
That loves to lead you on  
Say they got your number  
But they never ever call  
Like Eva the honey dip  
Now I don't even wanna trip  
Gave her my number

Her man gave me the fat lip  
Now I don't bother callin' anybody anymore  
Sippin' the finest  
Chauffeur driven and I'm gettin' calls  
Five, five, five ladies loves the Cool J  
No Mr. Smith in this baby  
Come and get the real thing You got my number on your dial  
Waitin' just to come around  
Anytime, anywhere  
Whatever's planned of mini skirts  
High shoes and leather

Julie got the back  
Lisa got the energy  
To help me stay on track Let's have a party
