Breathe Carolina

Hey world are you afraid?
Hey world be very afraid
Hey world are you afraid?
Hey world be very afraid
Hey world are you afraid?
Hey world be very afraid
Baby girl, baby girl I'm not afraid
Keep talking
And baby girl, baby girl, I'm not afraid
Keep talking
I'm not afraid, I'm not afraid, I'm not
So dream on, you're sleeping with the lights on
I know I'm the one you're thinking of
Don't try to run, try to run they're coming
You'll never let this go
I got plenty of time to waste on you
Got plenty of time to waste on
I got plenty of time to waste on you
And if you travel alone, can I come too?
I've been trying so hard to get it into you
And if you want to ride, try it from the inside
I'm the light and everybody's walking my way
I'll take another, I'm not afraid
I know it's jealousy 'cause all eyes on me
Know it's jealousy 'cause I'm killing
So dream on, you're sleeping with the lights on
I know I'm the one you're thinking of
Don't try to run, try to run they're coming
You'll never let this go
I got plenty of time to waste on you
Got plenty of time to waste on
So dream on, you're sleeping with the lights on
I know I'm the one you're thinking of
So dream on, you're sleeping with the lights on
I know I'm the one you're thinking of
Don't try to run, try to run they're coming
You'll never let this go
