

Me & Everyone I Know

House Of Fools

Will somebody
Come and rescue me
Take me to the other side
Of this town
Where we all run free Someone come and rescue me
Open up my eyes somebody
Try convincing me
Tell me that there's another sight
Where we all see what we want to see
'Cause I'm dieing to believe I'll keep listening
Yeah, I'll be listening
This time I think I'm over my head
I don't think, I'll ever make it out
No, no, no I've fallen further over the years
There's really not that much I care about
Oh I'm falling down and it shows
That I'm not alone
It's me and everyone that I know How many times
Will we come undone
It doesn't seem so long ago
We never wanted to be alone
Fill me, fill me again I'll be listening
Yeah, I'll be listening
This time I think, I'm over my head
I don't think, I'll ever make it out
No, no, no I've fallen farther over the years
I can't think of anything I really care about
I've fallen down and it shows
I am not alone
It's me and everyone I know
