

Saga

Sepultura

No surrender
Still unhurt, we fly Intense fiercing war, insult no tolerance
Against one rule, to fit 'em all
To blur my eyes, already blind
To keep my hands from moving free The pulse of what we live, the hate we build inside
Create my shield to fight them all
They see the things they can not be
To understand they can't be free No surrender
Still unhurt, we fly We learned the way, how to be real
What we say we live
It keeps me sane to embrace our will
And go against inhumanity My saga, my saga
Battle in the fields of fear
Attack defend, it's never over
My saga, my saga, no regrets It doesn't matter where you are
Do what you can with what you have
It doesn't matter where you are
Do what you can with what you have No surrender
Still unhurt, we fly We learned the way, how to be real
What we say we live
It keeps me sane to embrace our will
And go against inhumanity My saga, my saga
Battle in the fields of fear
Attack defend, it's never over
My saga, my saga, no, no, no, no regrets
