3 O'Clock Shot - Live

The Police (Strontium 90)

From the album strontium 90 (pangaea/ark21)
Words and music by sting

Everyone I know is lonely
My god's so far away
And my heart belongs to no one
So now sometimes I pray
Please take this space between us
And fill it up some way
I've been waiting for my brothers
Since fucking christmas day

There's a song that everyone's heard
Let me hear it, make me a part
Songs everyone's heard
Let me hear it, make me a part

Nothing seems to matter
To no one anymore
They say my world is shattered
I just did it on the floor
It won't go no further
It is here I make my stand
If you say my life is precious
When you held it in your hand

There's a song that everyone's heard
Let me hear it, make me a part
Songs everyone's heard
Let me hear it, make me a part

There's a song that everyone's heard
Let me hear it, make me a part
Songs everyone's heard
Let me hear it, make me a part
