

...And Beyond

Modern Baseball

Are you hearing me?
Are you embracing facts?
Say things you understand
That way you're catching my drift
Will you stay with me?
Will you sleep here tonight?
Just don't walk away
When I say "crush"
Are you here with me?
Or are you out in Space?
Orbiting
Think you know everything you got coming?
Will you stay with me?
Please don't walk away
Can't wrap my head around this
I don't wanna understand
You and I have come such a long way, for us to start again
You and I have come such a long way, for us to start again
You and I have come such a long way, for us to start again
You and I have come such a long way, for us to start again
