

Bigger Than That

[Alysha Brilla](#)

Well there was a time when you had my heart

And you had my love

And you had my trust

And you had my hope

And you had it all

I made myself small for you

Cause you were the man

With a bigger plan

Had it in your head

Yeah you had me then

Back when the river ran wild and free

I let you go and make a mockery of me

But now I see things I didn't see

And I'll never be that again, again

You think I was small

Tried to keep me in the back

But I am bigger than that

And You put up a wall

But I'll climb it like a cat

Cause I am bigger than that

I'm bigger than that

Well there was a time when I went

I couldn't even look you right into the eye

But now my heart is big and I'm on fire

And I'll never be that again, again

You think I am small

Try to keep me in the back

But I am bigger than that

You put up a wall

But I'll climb it like a cat

Cause I am bigger than that
