

When You Love Somebody

Leela James

What is a woman
To do with a man
Who treats her unkindly
When she does all she can I cried so many nights
How we fuss and fight
The make ups and the break ups
I loved you and only you the things you do When you love somebody
(Love love)
Oh Lord, yeah
When you love somebody
(Love love)
Things you do, ohh I gave you my lovin'
With no question asked
Tears on my pillow
From all your disrespect I didn't care about your past
I only wanted to make us last
You know I loved you and only you
The things you do When you love somebody, well
(Love love)
Oh Lord
When you love somebody
(Love love)
I loved you, baby Love somebody
When you love the things you do for love, oh
(Love love)
The things that you do Who knows what tomorrow may bring
All I know is, it is what it is
And why, do I look for clues, y'all?
When I don't have to question you, ohh When you love somebody, love somebody
When you love somebody, love somebody The things you do, the things you do
The things you do, the things you do
Oh, in the name of love
Oh, in the name of love In the name of love
All the things we do for love, love love love
In the name of love
All the things we do for love, love love love
In the name of love
All the things we do for love, love love love
