Innocent (acoustic Version)

Threshold

picture time as before where you slept through it all
they believe you were there why deny what i said?
vicious lies being heard you stand there how absurd
and with hate in your mind convict metake my life away or give back the answer you hold
and stand unashamed of what you have done
don't just walk away unlock the chains from your heart
prove my innocence cause i did no wrongempty words lies from the start? we stood strong never apart
had it all in our hands we had it all, yes you and me
now the tables have turned all i gave you return
makes it hard to believe what you've done to medon't call me your friend, won't you understand I don't need
