

Everybody Needs Somebody

The Marshall Tucker Band

EVERYBODY NEEDS SOMEBODY

(Jerry Eubanks, Doug Gray, George McCorkle)Listening for a faint sound

Gazing out the window I see

Winds blowing clouds

Wish they were taking me

A lonesome song on the radio

Reminds me of where I'd like to beCHORUSEverybody needs somebody

To help them make it through life

Arms to hold, words to soothe

Someone to say that it's all rightToo many miles of road, I really can't complain

These LONELY hotel rooms are driving me insane

My life's a hard life, wouldn't have it any other way

Someday darling, I'll be coming home to stayCHORUSSongs of the highway, one night stands

It can take it's toll on any kind of man

Lord, I miss you and I ain't afraid to say

Someday darling, I'll be coming home to stay
