

# Someone Like You

Steve Winwood

I've tried to live my life alone  
Independence, freedom was my own  
But there was a loneliness I could not ignore  
I knew deep down I needed more  
In my life I needed a feeling  
Of a love to come over me  
I felt the truth and so I prayed for  
Someone like you to hold my hand  
Someone like you to understand  
Someone like you to stand by me  
All my life, yeah, all my life, yeah  
Someone like you  
I remember laying eyes on you  
After we spoke deep inside I knew  
I can feel the happiness your soul brings to me  
Your presence makes my world complete  
And I know you know what I'm feeling  
There's a love coming over me  
And it's true, what I've waited for  
Your sweet and precious love, yeah  
Someone like you to hold my hand  
Someone like you to understand  
Someone like you to stand by me  
All my life, yeah, all my life, yeah  
Someone like you  
I felt there was an emptiness  
I didn't know what was missing  
I didn't know how to quench it  
You are the answer to all my prayers  
You are the one that I needed  
You are the one I believe in  
Oh, I believe in  
Someone like you to hold my hand  
Someone like you to understand  
Someone like you to stand by me  
All my life, yeah, oh baby  
Someone like you to hold my hand  
Someone like you to understand  
Someone like you to stand by me  
All my life, all my life, yeah  
Someone like you  
Someone like you  
Someone
