Trouble

Kimie Miner

Kimie Miner - Trouble lyrics

Trouble, always follows me
You know I try good, bad comes easily
I'm in the paper again, This morning.
You can read all about it
This is your warning

You and I
we going circles
Spinning round and round
And it all comes crashing down

I been living at the bottom lately (ooh)
Hoping that you be the one to save me (oh whoa)
But I'm alone on this broken highway (ooh)
Hey Yeah-eah
I been burning like an open fire (ooh)
See the flames
Reaching higher
But over and over again
It all comes crashing down

Trouble, makes a fool out of me
I get what I want, but it don't come free
I had an obsession, drop my defenses,
I let my wounds full of regrets and
My fam and folks said its like no volcanic inside my veins
Couldn't feel the fire turn to ashes as you walked away

You and I
we going circles
Spinning round and round
And it all comes crashing down

I been living at the bottom lately (ooh)
Hoping that you be the one to save me (oh whoa)
But I'm alone on this broken highway (ooh)
Hey Yeah-eah
I been burning like an open fire (ooh)

See the flames
Reaching higher
But over and over Again
It all comes crashing down

All that we are
What we might have been
Our dreams written out
Our pages so thin
We build a castle
Don't need a crown
But ashes to ashes
We all come crashing down

I been living at the bottom lately
Hoping that you be the one to save me
But I'm alone on this broken highway
Eh eh
I been burning like an open fire
See the flames
Reaching higher
But over and over again
It all comes crashing down (crashing down)

I been living at the bottom lately (ooh)
Hoping that you be the one to save me
But I'm alone on this broken highway
(I'm into pieces and pieces and pieces again)

I been burning like an open fire
(I try to stop my tears)
See the flames
Reaching higher (I'm in trouble)
But over and over again (I'm in trouble again)
It all comes crashing down
