Data De Groove

Falco

Cyberspace has got to be anarchy
A pirate concept
In and out and over me
Create a sequence file
On mapdisk from - gotta call me
ABBDSO1
Megauser high extension enter edit go AD DA
Stop stop roger over and go
Syntaxerror crashed on badblock
Is it real, is it nothing?
Is it
Data overflow
There's no river too deep
No Mountain too high
Any kind of vision in the air
Kein backspace mehr
Low-tech revolution
Formt sich dann
Zum Frontprogramm
The MEGA the SCORE
Desto MONO de CHROME
ATMO de FORCE
Is the Atmo at home
It's got to be the higher the goal
Desto schwerer Beruf - SAY!
The deeper the Soul desto
DATA DE GROOVE

Ich mein: Ich - Mich - Du - Dich - Ich - Mein
Du Dein so allein, so allein zu sein
Und so weiter
Hin zu wem zu fällst Du ab und zu
Fällst Du, nur zu
Sind zuende zu ganz auf
Cyberspace is auto-ex-ex
Show memorysize of(sex)...
I guess you know what
Stop Stop roger over and go
Syntaxerror crashed on badblock

Is it real, is it nothing?
Is it
Data overflow
There's no river too deep
No Mountain too high
Any kind of vision in the air
Kein backspace mehr
Low-tech revolution
Formt sich dann
Zum Frontprogramm
The MEGA the SCORE
Desto MONO de CHROME
ATMO de FORCE
Is the Atmo at home
It's got to be the higher the goal
Desto schwerer Beruf - SAY!
The deeper the Soul desto
