The Last Laugh

Iced Earth

My personal quest is to make your life hell
Yes dear friend listen up well
The power I've given I can take as wellI am your father destroyer of the light
I've taken your soul and have given you life
You are the damned condemned by my hand
My son creature of the nightChorus:
Extending, now you rise
Tormented, soul of fire
Deception in my eyes
Your life, your life is mineBridge
My new born son burn now with anger
I command and you must follow
Fly now and do battle
The heavens fall, mankinds disaster
