Kriegsphilosophie

Behemoth

From long forgotten eons,
At sunrise thou shouldst come.
Desired for so fucking long.
Ascend at my command,
Surmount the sea,
Throw open portals of life;
And scale this endless mountain.
Of grace and of tears,
Oh voice unspoken, mourn unheard,
Abandoned heart so desolate!

Rise!
Bow down before the kingless throne,
When sun is yet to rise.
Consume this putrid sphere!
Forever and beyond.

When heavenly chants mute;
Thy apparition I behold.
Oh Venus, the sweetest of them all,
Let me bathe in thy divinity.
Descend! And Thou hast descended,
Depart not yet!
I crave for warmth of blissful rays,
And fateless eyes encourage me.
The ancient's dreaming.
The wolf's unchained.
Disobedience has such a victorious taste!

Rise!
Bow down before the kingless throne,
When sun is yet to rise.
Consume this putrid sphere!
Forever and beyond.

Solo Nergal

(growls)

Rise!

Bow down before the kingless throne,
When sun is yet to rise.
Consume this putrid sphere!
Forever and beyond.

Forever abandoned among gods,
Since I have been made of flesh,
And yet I challenge Thee!
Canst thou hear my battle cry?
