

# Never Again

**Danny Fernandes**

Baby stop and think about it  
Tell me where did we go wrong  
How did it end like this  
Can we work it out, i doubt it  
We did all we could  
And baby I cant go on like this  
I never did you wrong ur trippin'  
Listening to your friends and all the bullsh-t they had to say  
It's like they loved you more than I did  
So baby roll wit' your crew  
And do what you gotta' do because I never wanna kiss you again  
Never wanna walk through the park holding your hand  
No more talking all night until the early morning  
It's such a shame to say that we'll never be the same...again Baby stop and think about it  
You lied to me, lied to me The love we once shared girl no longer  
It no longer remains and now its heartache and pain because\*  
She never really knew she wondered  
Was she being untrue or was I being a fool because  
I'm gone and im never coming home  
So baby don't call cause I won't answer the phone  
Stay out of my life baby just leave me alone  
And it's such a shame to say that we'll never be the same I never wanna kiss you again  
Never wanna walk through the park holding your hand  
No more talking all night until the early morning  
It's such a shame to say that we'll never be the same...again Baby stop and think about it  
You lied to me, lied to me Girl you told me you'd be there for me  
Promised that you'd never leave  
You lied to me Now I'm closing the door  
Put my heart on the floor  
I dont love you no more  
Thats why I never wanna kiss you again  
Never wanna walk through the park holding your hand  
No more talking all night until the early morning  
It's such a shame to say that we'll never be the same...again
