

There's That Grin

Deerhoof

There's that grin
don't make me fall in
love with again. There's that grin
don't make me fall in
love with again. There's that grin
don't make me fall in
love with again. There's that grin
don't make me fall in
love with again. Not all at once

Not all at once
Not all at once
Not all at once
Not all at once
Not all at once
Not all at once
Not all at once

Not all at once Not all at once

Not all at once
Not all at once
Not all at once
Not all at once
Not all at once
Not all at once
Not all at once
