

Oh Yeah

Babes In Toyland

Widow speak but do not see
The seer for the forest trees
Souled an enemy comes through dafeel
Compete with me you're obsolete Oh yeah, inliar or what? You can't map reality
The light is pure green energy
I'm so alive got nine fool eyes
I see through violet's thin disguise Oh yeah, enlight ya or what? The whole world's out in front of me
All sugar coated phallusy
I will not follow stupid sheep
I will not bow, I will not peep Oh yeah, Elijah or what?
Oh yeah, Elijah or what? Kettle black, I caught your act
You can not get away with that
Your caustic bullshit second sight
Your second's up, you're short on sight Oh yeah, enlieya or what ?
