liquid cool

D Fast

Certainly someone who is frozen is not alive
But neither are they dead they are in a third state
A biostasis what I would use to describe
Liquid coolMake me immortal, yeah, yeah
I am immortal, yeah
I am nothing, yeah, yeah
Becoming liquid coolWaves of oblivion, yeah, yeah
Lap at my feet, yeah
Laugh in my face, yeah, yeah
Devil take me liquid coolI is another, yeah
We blackout together, yeah
Our little death, yeah, yeah
Twilight elixir liquid coolMake me immortal, yeah, yeah
Once more around the sun
Uber religion, yeah, yeah
Ultra-evolution liquid coolHe who lives these words
Shall not taste death
Becoming nothing, yeah, yeah
Forever liquid coolThe number seventy-two
Living in another lifetime
The number seventy-two?
Future onesTo get into some place in the future
Where nobodys ever beautiful
But someday well look back and wonder
How we ever tolerated it, life and death
