

liquid cool

D Fast

Certainly someone who is frozen is not alive
But neither are they dead they are in a third state
 A biostasis what I would use to describe
Liquid coolMake me immortal, yeah, yeah
 I am immortal, yeah
 I am nothing, yeah, yeah
Becoming liquid coolWaves of oblivion, yeah, yeah
 Lap at my feet, yeah
 Laugh in my face, yeah, yeah
Devil take me liquid coolI is another, yeah
 We blackout together, yeah
 Our little death, yeah, yeah
Twilight elixir liquid coolMake me immortal, yeah, yeah
 Once more around the sun
 Uber religion, yeah, yeah
Ultra-evolution liquid coolHe who lives these words
 Shall not taste death
 Becoming nothing, yeah, yeah
Forever liquid coolThe number seventy-two
 Living in another lifetime
 The number seventy-two?
Future onesTo get into some place in the future
 Where nobodys ever beautiful
 But someday well look back and wonder
 How we ever tolerated it, life and death
