Hello Rain

The Softies

Packing boxes all night
Reading letters from you for the last time for real
Leaving you behind was easy
Now I know how little you feelNow I wasted all my wishes on you, I have nothing left to gain
So goodbye, wishing you well and hello rain
I made a paper boat and watched it going down the drain
So goodbye, wishing you well and hello rainThought I'd thrown them all away
Finding one last souvenir behind my bureau drawer
Feeling sad all on my own
I don't need you for that anymoreAnd I wasted all my wishes on you, I have nothing left to gain
So goodbye, wishing you well and hello rain
I made a paper boat and watched it going down the drain
So goodbye, wishing you well and hello rainYou can't stand to see me losing
All my precious sinlessness
Now my heart is out of your hands
You couldn't possibly want it back any lessNow I wasted all my wishes on you, I have nothing left to gain
So goodbye, wishing you well and hello rain
I made a paper boat and watched it going down the drain
So goodbye, wishing you well and hello rain
Goodbye, wishing you well and hello rain
