

# Hello Rain

## The Softies

Packing boxes all night  
Reading letters from you for the last time for real  
Leaving you behind was easy  
Now I know how little you feel Now I wasted all my wishes on you, I have nothing left to gain  
So goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the drain  
So goodbye, wishing you well and hello rain Thought I'd thrown them all away  
Finding one last souvenir behind my bureau drawer  
Feeling sad all on my own  
I don't need you for that anymore And I wasted all my wishes on you, I have nothing left to gain  
So goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the drain  
So goodbye, wishing you well and hello rain You can't stand to see me losing  
All my precious sinlessness  
Now my heart is out of your hands  
You couldn't possibly want it back any less Now I wasted all my wishes on you, I have nothing left to gain  
So goodbye, wishing you well and hello rain  
I made a paper boat and watched it going down the drain  
So goodbye, wishing you well and hello rain  
Goodbye, wishing you well and hello rain
