

Explosions (Chuck Wild Remix)

Coco Morier

Even there amongst the storms
When the tide will crush your bones
In the dirty water
We are sleeping under When the men leaves the wind like this
Will your dream go away like tears?
I just wanna have you
Tell me that you want too If your spark let it turns to gold
And your eyes are tearing your soul
Does it really matter?
Tell me what you're after
Life's out, baby, now your mind
Don't far behind to look to feel we are lower over
Don't care what you do, I like the fun inside of you
And we can make an explosion
Oh-oh, Oh-oh Even when you've gone too far
Will always have my heart
I will go on you closer
If I ever held you And the mountains where this will be
But it's not too hard for me
You're the one to fight for
I will always want more Life's out, baby, now your mind
Don't far behind to look to feel we are lower over
Don't care what you do, I like the fun inside of you
And we can make an explosion
Oh-oh, Oh-oh
That's all I'm on fire
I'm on fire
Fire
That's all I'm on fire
I'm on fire Life's out, baby, now your mind
Don't far behind to look to feel we are lower over
Don't care what you do, I like the fun inside of you
And we can make an explosion Life's out, baby, now your mind
Don't far behind to look to feel we are lower over
Don't care what you do, I like the fun inside of you
And we can make an explosion
