I DREAMED MY BABY CAME HOME

WITH MELBA MONTGOMERYI went to sleep last night lonely and blue

Tears were falling like the morning dew

But when I closed my eyes my loneliness was gone

Cause I dreamed my baby came home

And you were holding me kissing me like you used to do

My heart went crazy when you whispered I love you

Yes you were standing there sweet as you could be

Like you had never said goodbye to me

For just a little while my loneliness was gone

Cause I dreamed my baby came home

I went to sleep last night lonely and blue...

And you were holding me...

Yes you were standing there...
