

The Big Crash

Eddie Money

Well, she's always been a good, good girl
But she's always lived in her own world
Stealing makeup from her mommy's purse
And her mother said it only got worse
Well, she ran with kids much older
She did all the things they told her to do
Doing crazy things because they were in
Now she's heading for the big crash
She's running with the white trash
The girl is moving too fast
She's heading for the big crash
The big crash, big crash
Well, I wish she'd listen to me
And I'd tell her 'bout the things that she doesn't see
Tell her now, before it gets too late
That she's heading for the big crash
She's running with the white trash
The girl is moving too fast
She's heading for the big crash
The big crash, big crash
She thinks that she's all grown up now
She thinks that she's cool enough now
When will she realize
They're cutting her down to size?
The big crash
The girl is moving too fast
She's heading for the big, the big, big crash
Going places where she shouldn't have been
Doing crazy things because they were in
I gotta say
She's heading for the big crash
She's running with the white trash
The girl is moving too fast
She's heading for the big crash
The big crash
She's heading for the big crash
She's running with the white trash
The girl is moving too fast
She's heading for the big crash
The big crash
She's heading for the big crash
Running with the white trash
The girl is moving too fast
She's heading for the big crash
The big crash, the big, big crash
She's heading for the big crash
The girl is moving too fast
She's running with the white trash
She's heading for the big crash
The big crash, the big, big crash
