## Judas Priest

Advisory - the following lyrics contain explicit language:

Holy Satan begs he don't make no sense
Striving down there to recruit all of you
Do not live in sin or taste the fear again
Someone's coming back, fuck the almanacsPremonition say, Better step away
Skeptics preach a lot watch in aftershock
Heed the prophecies in your offices
Someone out the blue explodes into viewThe time is near, the day has dawned
Be prepared for what's to comeHe's the Man, Armageddon
Walking through fire, Metal Messiah
He's the One, the Father the Son
Creator, destroyer, Metal MessiahHeaven's in a state someone's at the gate
Crashing isn't cool he don't know the rules
Stepping in he says time to rock the place
Like they've got a choice then all hell breaks looseHell ain't ready for what he's got in store
Time you fuckers had change of management
Better fornicate before it's too late
Cranks the power up as he detonatesNever too late to extricate
In the event die or repentHe's the Man, Armageddon
Walking through fire Metal messiah
He's the One, the Father the son
Creator, destroyer, Metal MessiahYou can pray to him auditorium
Buy the merchandise cheap at twice the price
Rising up above with his decibels
He's come down to earth next to universeNever too late to extricate
In the event die or repentThe time is near, the day has dawned
Be prepared for what's to comeHe's the Man, Armageddon
Walking through fire Metal Messiah
He's the One, the Father the Son
Creator, destroyer, Metal MessiahMetal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done

Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
Will be done
Metal Messiah, Thy Kingdom come Thy will be done
