

Second Serving

Chris Brown

From the moment I saw you
I stopped everything cause nothing else matter
Cause I had to have you
And I knew I couldnt get nothin better
It felt like destiny
Cupid, shot me with an arrow through my heart
When youre next to me, Im stupid in love
And your body's telling me something
And we be sweatin making love, bed bumping
(Ooooh) I hear you screamin'
Youre yelling Give it to me daddy, I need it
Girl you
You made me change
Got me thinking bout giving you this ring, girl
It might seem strange
But I love the way you make me feel when we're sexin
We can do it on a plane
Even outside in the cold, in the rain, girl
When were lovin
I need a second serving, of you
Ooh your lips I taste
And Imma slide my hands down to your waist
Damn I wish I could
Keep you close enough for just a day
Got me thinking, could you have my kids?
Big house and a dog, you my wife
Im bout to go all out
Take it all off
Cause its going down tonight
And your body's telling me something
And we be sweatin making love, bed bumping
(Ooooh) I hear you screamin'
Youre yelling Give it to me daddy, I need it
Girl you! Girl you know the rest
You made me change
Got me thinking bout giving you this ring, girl
It might seem strange
But I love the way you make me feel when we're sexin
We can do it on a plane

Even outside in the cold, in the rain, girl
When were lovin
I need a second serving, of you
Take my hand
Lemme put this ring on your finger
Im your man, girl you got an R&B singer
And its a party
Party
Yeah its a party
Girl you make me
You made me change
Got me thinking bout giving you this ring, girl
It might seem strange
But I love the way you make me feel when we're sexin
We can do it on a plane
Even outside in the cold, in the rain, girl
When were lovin
I need a second serving, of you
I need a second serving tonight babe x2
