

Frozen Heart

[George Jones](#)

Frozen heart that's standing all alone
Chilled because your love forever's gone
Needing you like a cold hand needs a glove
Take my heart and warm it with your love I can't count the times I've hid my face
Crying just to be in your warm embrace
The winter of your love is falling at my door
Since you said I don't wanna love you anymore [fiddle - steel]
Frozen heart that's standing all alone
Chilled because your love forever's gone
I'm needing you like a cold hand needs a glove
Take my heart and won't you warm it with your love
