

Never In A Million Years

Asia

Plain evil, I know what's on your mind
Never say you're leaving me behind
No trouble, get that from the start
You know the cost of loving is your heart I would never leave you
I would never go
I would never leave you Never in a million
Never in a million
Never in a million years Pure pleasure, the love that's in your eyes
You never give me feelings in disguise
Same fever, it comes on all the time
Always lets me know what's on your mind I would never leave you
I would never go
I would never leave you Never in a million
Never in a million
Never in a million years Live angel, you come to me and cry
Like tears of joy come raining from the sky
I'd never leave you, you knew that from the start
I'll give it to you now straight from the heart I would never leave you
(Never in a million years)
I would never go
(Never in a million years) I would never leave you
(Never in a million years)
I would never go
(Never in a million years) I would never leave you
(Never in a million years)
I would never go
(Never in a million years)
