Falling Out

Craig's Brother

I'm sure you're in a lot of pain
But it's supposed to feel this way
I never did this to youDespite the beauty we create
I just can't stand beneath your weight
I don't know what to doI'm sure you need a helping hand
But you're stuck in sinking sand
And you're pulling me in with youLook at the mess you drug me through
Look at the pity you pursue
I'm falling out with youHelp me, I'm falling out with you
Help me, I'm falling out with youSo make my instincts leave me be
'Cause I don't want to fight or flee
But there's not much more you can take from meDespite the pleasure we invoke
I'm so sick of being broke
Will it hurt this much when I'm broken free?I try but I can't understand
Why I have to hold your hand
Every step of the wayDay after day
You depend on my strength to pull you through
But I'm just as weak as youHelp me, I'm falling out with you
Help me, I'm falling out with you
Help me, I'm falling out with youHelp me, I'm falling out with you
Help me, I'm falling out with you
Help me, I'm falling out with you
