Take Me Away

Icp (insane Clown Posse)

Welcome to the dark carnival
Violent J, Shaggy 2 Dope
The Insane Clown Posse
We'll live forever, live forever
Come join us, carnival awaits us
Take my hand, take my hand
Shangri-La, live forever
Here go another clown song, freaky and weird
I'm still preachin', I'm like Noah without the beard
I'm tryin'a spread the facts that I know for sure
Yet many don't believe in our carnival freak show
It's alright though, there's enough who do
And only time will tell if our stories are true
But for everybody here, I can promise you this
You'll never hear us rap about the typical bullshit
Bling, bling, all the money they got
All the ice they wear, and all the people they shot
All the freaks they pull and all the cars they drive
Only we rap about fuckin' a bee-hive
You wanna keep it real, walk out your door
That's as real as it gets from the sky to the floor
But the dark carnival will take your soul away
And give you mythical adventure in a magical way
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Please take me away, take me away
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Come take me away, take me away
Fun house, freak shows and murder-go-rounds
Fuck how you lookin', paint it up like a clown
Loosen up, let it go, you ain't gotta be tense
Faygo flyin' everywhere, fuck makin' sense
And that's the beauty of it, look backstage
Ain't another group out here on the same page
Run with everybody or walk with our crew
And stand on the moon, face the world and say fuck you

I ain't sittin' out playin' that shit
Put me in the ground where my juggalos is
Treat me special, I'ma leave your lip drainin'
We in this together waitin' on the same wagon
Let 'em laugh now, let 'em laugh for years
We'll see who's laughin' in the house of mirrors
'Cuz that's where I'm goin' and if you're not
Bump that other shit and hear about the ends they got
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Come take me away, take me away
I love for, the Carnival
I die for, the Carnival
I pray for, the Carnival
Please take me away, take me away
Live forever, take my hand, forever, live forever
Come take a journey through heaven and hell
See what we have to come, and share the story I tell
Walk hand-in-hand with the devil and God
Let 'em pull you in half, purgatory is odd
Fuck newspapers, fuck magazines
Fuck A and R's, and your ball-huggin' jeans
Fuck anybody tryin' to change our ways
As long as 6 joker cards got somethin' to say
I speak for the crazy, I speak for scrubs
I speak for the thugs pissin' in your hot tubs
I speak for the people that you always say don't know how to act
We like 'em just like that
Fuck your Grammy's, fuck your Music Awards
I strangle your host, with his microphone cord
Fuck anybody who ain't down with the clown
From now until millennium's after, I'm dead in the ground
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Come take me away, take me away
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Please take me away, take me away
I live for, the carnival
I die for, the carnival
I pray for, the carnival
Come take me away, take me away

I live for, the carnival
I die for, the carnival
I pray for, the carnival
Please take me away, take me away
