He Knows

The Futureheads

A girl from our city went missing from her home
People left their houses people left their homes
He was not invited when he went into her room
He wanted it now she wanted it soon
He'd love to make her?
But when she told him no he foresaw her lucky smile

He knows she'd given him all the signs
He knows she'd given him all the sounds
He knows he didn't have that much time
He knows until the body was found

A girl from our city went missing from her home
And the people left their houses and the people left their homes
He was not invited when he went into her room
It was just a matter of time, he wanted it now she wanted it soon
It was just a matter of time, and he broke the door down he broke it in two
It was just a matter of time, then the family walked out when there was nothing they could do
It was just a matter of time, it was just a matter of time
It was just a matter of time, it was just a matter of time

He knows she'd given him all the signs
He knows she'd given him all the sounds
He knows he didn't have that much time
He knows until the body was found

And the authorities weren't pleased when they couldn't bring her home
It was just a matter of time, it was just a matter of time
?? hoping to do, it was just a matter of time, ?? hoping to do

It was just a matter of time, it was just a matter of time
It was just a matter of time, it was just a matter of time
It was just a matter of time, do you really think so
It was just a matter of time, do you really think so
It was just a matter of time, do you really think so
