Sweeter Than The Truth

Teddy Geiger

I broke down and let them save you
Oh, and the car pulled out the driveway
Wave goodbye, its been so long
You took that medicine they gave you
Oh, are you felling any better?
Cuz its looking like you arent
Since they took you away
Ive been thinking and Ive got a lot to sayChorus:
I brought a picture of us
Do you remember when we used to get together,
Hold hands, and say forever baby?
How could we get back to that place?
I said I didnt but I, I really missed ya
All the things in my life
Every one of them reminds me of you
Well Ill never get back
These memories and photographs
Maybe its just better I remember these pictures
So much sweeter than the truthWithout you angers lost its flavor
Oh, no more yelling, no more fighting
So I leave the T.V. on
With no pay-per-view or cable
Sings as sweetly as my baby
Oh I miss it everyday
Since they took you away
Ive been waiting just to hear you say my nameChorus:
I brought a picture of us
Do you remember when we used to get together,
Hold hands, and say forever baby?
How could we get back to that place?
I said I didnt but I, I really missed ya
All the things in my life
Every one of them reminds me of you
Well never get back
These memories and photographs
Maybe its just better I remember these pictures
So much sweeter than the truthSo many nights, so many days away
And I thought life without you would be easy living
Chorus:

I brought a picture of us
Do you remember when we used to get together,
Hold hands, and say forever baby?
Well, how could we get back to that place?
I said I didnt but I, I really missed ya
All the things in my life
Every one of them reminds me of you
Well well never get back
These memories and photographs
Maybe its just better I remember these pictures
So much sweeter than the truth
