

Bring the Sun

Kora

Whoa, yeah, whoa Open spaces, take a look around
We bring the sun straight from the underground
Light up the day inside your different way
Imagination without limitations
Yeah, yeah Just keep the clocks off the plan sitting
Never had to work it out
Part of the picture's missing
Reasons why you're still in, deny the world
Yeah, yeah
I'd change it all for you
Get eclectic transformation
Keep it in the back of your mind
While you find you're liberating your liberation
When we shine among the stars
The brightest one we're wishing
Then you'll come to a place where you realise
Everything you do is with them
'Cause the beauty's always been there in you Open spaces, take a look around
We bring the sun straight from the underground
Light up the day inside your different way
Imagination without limitations Open spaces, take a look around
We bring the sun straight from the underground
Light up the day inside your different way
Imagination, yeah
Open spaces, take a look around
We bring the sun straight from the underground
Light up the day inside your different way
Imagination, yeah Open spaces, take a look around
We bring the sun straight from the underground
Light up the day inside your different way
Imagination
